To Whom It May Concern:

The vast majority of citizens want American Fork Canyon preserved for its pristine multiuse value. We nearly lost this diamond if not for Mark Allen. I am not overstating the facts. He alone uncovered the secret strategy to change the canyon to another overrun commercial enterprise mainly benefiting few in commercial enterprise while ignoring the wishes of Utah citizens.

Then once again it was Mark Allen who uncover another late in the night effort to take another Diamond from the public interest, Bridal Veil Falls. He brought this issue to the public light and lead a crusade to preserve it for public use.

Leading the charge on these issues was without compensation. Rather a dedicated effort to uncover back door dealings and bring them to public debate and accountability.

Mark is someone you can trust and count on.

Don Watkins Former Mayor Alpine City

A handwritten signature in black ink, appearing to read "Don Watkins", written over the printed name.
